## SUMMARY

Frontend Developer with experience in building responsive, user-friendly web applications using modern technologies. Skilled in transforming design prototypes into interactive web experiences while collaborating closely with designers and backend teams. Passionate about writing clean, maintainable code and continuously improving development skills. Strong focus on delivering performant and accessible web applications that meet user and business needs.

## EXPERIENCE

### Frontend Developer

04/2024 - Present

Lunera ↗

- Built and maintained the company's own website, ensuring responsive design, performance optimization, and interactive UI features.
- Took part in the full-cycle development of websites for clients, from initial request to final launch, focusing on frontend implementation.
- Translated design mockups into high-quality code, collaborating with designers to create pixel-perfect user interfaces.
- Worked directly with clients' requirements, adapting frontend solutions to meet specific business needs and goals.
- Applied modern frontend technologies and best practices to deliver accessible, fast, and user-friendly web applications.

### Frontend Developer

04/2023 - 04/2024

Alpha Profit

- Became a part of the creation of an internal dashboard that streamlined access to key performance metrics, improving data retrieval speed and overall team efficiency.
- Focused on frontend implementation, I engaged with user authentication protocols, data tables, and interactive graphs, enhancing user experience and functionality.
- Collaborated closely with cross-functional team members to ensure seamless integration of features while maintaining high coding standards and best practices.
