SUMMARY

Frontend Developer with experience in building responsive, user-friendly web applications using modern technologies. Skilled in transforming design prototypes into interactive web experiences while collaborating closely with designers and backend teams. Passionate about writing clean, maintainable code and continuously improving development skills. Strong focus on delivering performant and accessible web applications that meet user and business needs.

EXPERIENCE

Frontend Developer 05/2024 - 10/2024
Alpha Profit

- Became a part of the creation of an internal dashboard that streamlined access to key performance metrics, which improved efficiency by enabling team members to retrieve information faster by 15% than before.
- Focused on frontend implementation, I engaged with user authentication protocols, data tables, and interactive graphs, enhancing user experience and functionality.
- Collaborated closely with cross-functional team members to ensure seamless integration of features while maintaining high coding standards and best practices.

Frontend Developer 11/2023 - 04/2024
wikiznak ↗

- Contributed to a dynamic development team in the implementation of a responsive website using Next.js, enhancing overall user engagement.
- Developed interactive forms and integrated a map feature, which significantly improved the site's functionality.
- Actively participated in the development process, ensuring high code quality, adherence to project requirements, and effective communication with team members to achieve project goals.
